The following units were determined to be lead-safe following their participation in the Montgomery County Lead Hazard Control Program funded by the U.S. Department of Housing and Urban Development's Office of Healthy Homes and Lead Hazard Control. The Lead-Safe Registry is made up of homes that have had substantial lead remediation and were deemed lead-safe at the time of clearance testing as indicated in the listing.

Please note: Lead-safe means that a dwelling, dwelling unit or premises either contains no lead, or contains lead in such condition and location that does not result in a lead source health hazard, as determined by the Office of Public Health. It does not necessarily mean lead-free.

The Montgomery County Lead Hazard Control Program has no control over and makes no warranties regarding activities that the landlord, management, or residents may have taken since the property was found to be lead safe.
