UAS (Drones) for Public Safety

This four-day course will provide a turn-key solution for starting an Unmanned Aircraft Systems Unit for any Public Safety Department. Students will prepare for the FAA Part 107 Remote Pilot Exam, setup and operate a drone, perform tactical operations, and return to the department to hit the ground running. No previous experience or drone required. The drone is a crucial tool for every public safety department.

- FAA Part 107 Remote Pilot Test Prep
- Hands-On Flight Training
- How to Run a Drone Job
- Mapping/Modeling Accident Recon
- Tactical Training / Search Missions
- UAS Policy
- CLE01676 - 30 hrs (Accreditation)
- $899 per seat (20 seat maximum)

Instructor: Joseph Warwick - Southeastern PA Unmanned Aircraft Systems
- 35 years of flight experience
- 18 Years of flight instruction
- 33-year physics instructor
- Siemens National Educator Award
- Custom UAS Research & Design
- 8 years of providing equipment and training to dozens of departments
